Human Resource Modernization and Compensation Task Force
Recommendations Attached

25X1

1. Attached are the recommendations of the Human Resource Modernization and Compensation Task Force (HRMCTF) to the Executive Committee related to the modification of the Agency awards program and the processes related to that program. Because these recommendations will affect all Agency managers if they are adopted, it is important to understand the views of the various elements of the Directorate prior to their submission for approval.

2. The recommendations represent a negotiated set of recommendations among the five career services in the Agency. In that sense, they are probably not representative of the complete desires of any of the five. The Task Force considers the set of recommendations to be a positive movement in the awards area.
